Policy Document on Energy Usage and Sustainable Environment

Energy conservation is the need of hour for protecting environment to ensure sustainability. As a part of the environmental strategy, Chhatrapati Shivaji Institute of Technology, Durg (CSIT) resolutely endorses the policy of environment conservation which stands deeply rooted in our commitment to set new standards of environmental preservation. The policy aims to explore the renewable energy resources to reduce the burden of the government and to find out substitute natural resources as solutions to the energy crisis. One of the primary objectives in realizing the mission of the institution is to sensitize students about the environmental issues, thus motivating them to promote ecological justice and sustainable development.

OBJECTIVES:

- To develop awareness about environmental issues.
- To practice energy saving methods in every possible way.
- To understand one's responsibility towards energy conservation.
- To make the stakeholders aware of the ill effects of energy depletion.
- To ensure conscious purchase of power conserving devices.
- To reduce waste production on campus for all activities and programs.
- To initiate water management and conservation practices.
- To encourage green practices within the campus and beyond.
- To maintain cleanliness and sanitation on campus.
- To provide a pollution free healthy environment.

MEASURES TAKEN:

- Solar energy panels are installed in campus.
- LED lamps are used all over the campus.
- Encourage the students and staff to use environment-friendly vehicles, including bicycles, public transportation
- Separate parking facility has been developed for vehicles with relatively higher emissions.
- LED/LCD Monitors are been used in all the classes and laboratories.
- Single use plastic usage has been banned inside the campus.
- Systematic waste management mechanism has been developed.
- Rain water harvesting system has been installed in every building inside the campus for conservation of water.
- Tree plantation drives are conducted frequently.
- Variety of herbal, medicinal and fruit bearing plants and trees are planted across the campus.
- Differently Aabled (Divyangjan) Friendliness, Barrier Free facilities are installed in the campus.
- Green Audit/Energy Audits are conducted in regular intervals.

This policy will be communicated to the students and employees via internal communication channels. The environment and energy policy, objectives and targets will be reviewed on a regular basis by the competent authorities.
