7.2.1 Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual

Best Practice I

Title of the Practice: TEACHER GUARDIAN FOR STUDENTS.

Goal:

The primary objectives of the Teacher Guardian for Students is to minimize dropout rates, enhance academic performance, and reduce stress among students. Additionally, the program aims to create a supportive environment for students, especially those from educationally weak backgrounds or living away from family for the first time.

Practice

Each teacher is assigned around 20-25 students for the complete duration of their study. They meet at least once a month to discuss and clarify personal or academic issues. The Teacher Guardian encourages students to participate in co-curricular and extracurricular activities and sports. The Teacher Guardian keeps records of academic performance, familial information and achievements in a TG Record Sheet. Teacher Guardian keeps in touch with parents regarding their wards' attendance, test performance, fee payment, examinations, etc. Additionally, Teacher Guardian counsel students in need of emotional support and speak with respective staff to solve problems that students may face. Special care is taken of weak students, who are given advice on how to study, prepare a time table for study, clarify doubts, and are given notes to study. Student problems are discussed with the department heads, other faculties, and necessary action taken to solve them.

Evidence of Success:

The Teacher Guardian program has been successful in achieving its objectives. It is evident through improved academic performance, reduced failure rates, increased participation in co-curricular and extracurricular activities and in managing better discipline on campus, and improved teacher-student relationships.

Best Practice II

Title of the Practice: Career Planning & Development

Goal:

? To strengthen the curriculum, improve the syllabi's skill component, and include career planning and development to enable students to start their own businesses or be employable.

This was implemented –

Estd. 1999

Chhatrapati Shivaji Institute of Technology

Approved by: AICTE, New Delhi | Affiliated to CSVTU, Bhilai

- To impart career education and help students who want to go straight into the workforce build their abilities.
- To aid students in exploring, identifying, pursuing, and integrating their personal and professional career goals.
- The purpose of including skilling in the curriculum is to offer chances for high-quality, short- and long-term skill development.
- To provide interesting courses for community and personal development.
- To increase students' skill sets and equip them for careers in other fields.
- To establish direct connections between students and employers, internships, and on-the-job training.
- To create professionals with global competencies—such as information and communication technology, soft skills, etc.

3. The Context

Workshops and Seminars: CSIT Durg conducts regular workshops and seminars focused on career planning and development to equip students with essential skills and knowledge for their professional journey.

Industry Interaction: The College facilitates interactions with industry professionals and experts to provide students with insights into current market trends, job opportunities, and skill requirements.

Career Guidance Sessions: Dedicated career guidance sessions are organized to assist students in exploring various career paths, understanding industry expectations, and identifying their strengths and interests.

Evidence of Success:

This initiative of the CSIT has contributed in increased employability skills and enhanced recruitment. The practice has enhanced student community's interest towards career planning too. It has also encouraged the students to build self-confidence, hone professional communication and work to meet the expectations of the contemporary industries.

7.2 Best Practices

7.2.1 Describe two best practices successfully implemented by the Institution as per NAAC format provided in the Manual

Response:

Best Practices of the college

Best Practice I

1. **Title of the Practice:** TEACHER GUARDIAN FOR STUDENTS.

2. **Goal:**

The primary objectives of the Teacher Guardian for Students is to minimize dropout rates, enhance academic performance, and reduce stress among students. Additionally, the program aims to create a supportive environment for students, especially those from educationally weak backgrounds or living away from family for the first time.

3. **The Context:**

Students face various challenges that can negatively impact their academic and personal lives. In a classroom setting, it becomes challenging for teachers to provide individual attention to each student. The Teacher Guardian program is designed to provide personal counseling to students to improve their overall well-being and academic performance.

4. **Practices**

Each teacher is assigned around 20-25 students for the complete duration of their study. They meet at least once a month to discuss and clarify personal or academic issues. The Teacher Guardian encourages students to participate in co-curricular and extracurricular activities and sports. The Teacher Guardian keeps records of academic performance, familial information and achievements in a TG Record Sheet. Teacher Guardian keeps in touch with parents regarding their wards' attendance, test performance, fee payment, examinations, etc. Additionally, Teacher Guardian counsel students in need of emotional support and speak with respective staff to solve problems that students may face. Special care is taken of weak students, who are given advice on how to study, prepare a time table for study, clarify doubts, and are given notes to study. Student problems are discussed with the department heads, other faculties, and necessary action taken to solve them.

5. Evidence of Success:

The Teacher Guardian program has been successful in achieving its objectives. It is evident through improved academic performance, reduced failure rates, increased participation in co-curricular and extracurricular activities and in managing better discipline on campus, and improved teacher-student relationships.

6. Problems encountered and resources required:

The Teacher Guardian program requires committed teaching staff who are willing to help students beyond teaching hours. Regular monitoring and evaluation of the program are essential to ensure its effectiveness.

Teacher Guardian interacting & Counseling with Students

Best Practice II

1. Title of the Practice: Career Planning & Development

2. Goal:

- To strengthen the curriculum, improve the syllabi's skill component, and include career planning and development to enable students to start their own businesses or be employable.

This was implemented –

To impart career education and help students who want to go straight into the workforce build their abilities.

- To aid students in exploring, identifying, pursuing, and integrating their personal and professional career goals.
- The purpose of including skilling in the curriculum is to offer chances for high-quality, short- and long-term skill development.
- To provide interesting courses for community and personal development.
- To increase students' skill sets and equip them for careers in other fields.
- To establish direct connections between students and employers, internships, and on-the-job training.
- To create professionals with global competencies—such as information and communication technology, soft skills, etc.

3. The Context

1. **Workshops and Seminars:** CSIT Durg conducts regular workshops and seminars focused on career planning and development to equip students with essential skills and knowledge for their professional journey.

2. **Industry Interaction:** The college facilitates interactions with industry professionals and experts to provide students with insights into current market trends, job opportunities, and skill requirements.

3. **Career Guidance Sessions:** Dedicated career guidance sessions are organized to assist students in exploring various career paths, understanding industry expectations, and identifying their strengths and interests.

4. **Resume Building Workshops:** CSIT Durg conducts workshops to help students build effective resumes, highlighting their academic achievements, skills, and experiences to attract potential employers.

5. **Mock Interviews:** Mock interview sessions are arranged to simulate real-world interview scenarios, allowing students to practice their communication skills, confidence, and professionalism.
6. **Internship and Placement Assistance:** The college assists students in securing internships and placements by connecting them with relevant companies and providing support in resume preparation, interview preparation, and networking.
7. **Skill Development Programs:** CSIT Durg offers skill development programs to enhance students' technical, soft, and interpersonal skills, making them more competitive in the job market.
8. **Entrepreneurship Support:** The college provides guidance and resources for students interested in entrepreneurship, including mentorship, startup incubation facilities, and networking opportunities.
9. **Networking Events:** Networking events such as career fairs, alumni meets, and industry visits are organized to facilitate connections between students, alumni, and potential employers.
10. **Continuous Support:** CSIT Durg offers ongoing support and counseling to students throughout their academic journey and beyond, ensuring they are well-prepared and confident in pursuing their career goals.

Overall, the "Career Planning & Development" initiatives at CSIT Durg aim to empower students with the skills, knowledge, and resources needed to succeed in their chosen careers and make informed decisions about their professional futures.

4. The Practice

Certainly, here are some practices commonly implemented for "Career Planning & Development" organized by CSIT, Durg Engineering College for the students:

1. **Career Counseling Sessions:** Trained professionals conduct one-on-one counseling sessions with students to assess their interests, skills, and career aspirations, providing personalized guidance and advice.
2. **Skills Assessment Tests:** CSIT Durg administers skills assessment tests to help students identify their strengths and areas for improvement, guiding them towards suitable career paths.
3. **Guest Lectures by Industry Experts:** Inviting industry experts to deliver guest lectures provides students with valuable insights into current industry trends, technological advancements, and career opportunities.
4. **Resume Writing Workshops:** Workshops are conducted to teach students how to create professional resumes tailored to specific job roles, highlighting their qualifications, experiences, and achievements effectively.

5. **Mock Interview Sessions:** Mock interview sessions are organized to simulate real-world job interviews, allowing students to practice their interview skills, receive constructive feedback, and improve their confidence.
6. **Career Development Workshops:** Interactive workshops covering topics such as networking strategies, job search techniques, and professional etiquette equip students with essential skills for navigating the job market successfully.
7. **Internship Programs:** CSIT Durg facilitates internships with reputable companies, allowing students to gain hands-on experience in their field of study, explore different career options, and build professional networks.
8. **Industry Visits and Tours:** Organizing visits to industries and companies familiarizes students with workplace environments, operations, and job roles, providing practical insights into their chosen field.
9. **Placement Drives:** CSIT Durg conducts placement drives inviting top companies to recruit students for internships, full-time positions, and trainee programs, facilitating direct interactions between students and employers.
10. **Career Development Resources:** Providing access to online resources, career development books, and job portals equips students with additional tools and information to support their career planning and job search efforts.
11. **Alumni Networking Events:** Organizing networking events with alumni allows current students to connect with successful graduates, gain mentorship, and learn from their experiences in the professional world.
12. **Professional Development Programs:** Offering programs on professional skills development, such as communication skills, time management, and leadership training, enhances students' employability and career readiness.

These practices collectively contribute to fostering a supportive and proactive environment for career planning and development at CSIT, Durg Engineering College, empowering students to make informed decisions and succeed in their chosen careers.

5. Evidence of Success

- Students' success rate in the final placement interviews has increased significantly as a result of the placement-based training curriculum.
- Students' general success as well as their ability to get jobs or launch their own start-ups have shown these courses to be beneficial.
- As evidenced by the placement, the opportunity for improved employment has been made possible by the multifaceted and multidisciplinary learning experiences.
- Students are able to apply theoretical knowledge in real-world scenarios and have developed a variety of skills through their fieldwork, practical training, and summer internships.
- An individual's proficiency in a particular area of interest is improved through skill development.
- Increases in the ability to communicate more effectively, manage time more effectively, and create a professional network.

6. **Problems encountered and resources required:** Career Planning & Development for Engineering Students faces challenges like limited industry exposure and insufficient soft skills guidance. Essential resources include industry partnerships, career counseling services, and skill development workshops.
